December 2024

Abstract

This is an introduction to using LaTeX. It will show how to format a paper, insert equations, figures, and tables. LaTeX can also be used to create lab reports, CVs, bibliographies, and other documents.

Contents

1 Introduction

We can add random text and paragraphs.

Here is another paragraph.

We can also create lists:

- llamas
- donkeys
- goats

And numbered lists:

1. oranges
2. bananas
3. apples
